REPORT OF PRINCIPAL B. C. A.

Paul N. Carpenter, Prin.

To the Board of Trustees and the Citizens of Bridgewater,
Maine:

School opened for the year on October 5, 1942, with enrollment by classes as follows:

Classes	Boys	Girls	Total
Freshmen	11	10	21
Sophomores	6	8	14
Juniors	4	8	12
Seniors	4	8	12
Totals	25	34	59

During the last year the war has necessitated many changes affecting the school. The war departments have made many requests to which the schools have tried to cooperate. Stress has been asked on subjects such as arithmetic, mathematics and Science. We have tried to follow these requests so far as it seems advisable. Stress has been asked on shop work of many kinds, this we have not been able to do.

Physical education has become a required subject. The reason for this is quite simple. It has been found through the Selective Service that a very high percentage of boys are physically unfit for service. Likewise many girls who have gone into industry have not been able to handle the job, because of physical unfitness, and many accidents have resulted due to this.

The armed services and industry all agree that until this war is over, every individual must work harder than ever before, and that the physically fit individual is the one who can do the most and, more important, are the ones who are more able to protect themselves and so prevent personal injury.

If this is a protective measure to your boys and girls then we are more than willing to cooperate.

Although the teachers have not asked for it, a part of the rationing program has been given to them. And they have been willing to do anything of this sort to help the war effort. I know that I speak for them in thanking you as a citizen of Bridgewater for your cooperation in these programs. I also wish to thank publically all citizens who have volunteered and assisted the teachers in these programs.

Looking into the future it would seem that there may be some very marked changes in the High School program—changes which would help the war effort. These changes in the past, and probably will be in the future, have been for the better. Most changes have been toward more practical subjects, subjects which have a real use both now and after the war. We hope they will continue as such.

Respectfully submitted,

PAUL N. CARPENTER, Principal

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of
Bridgewater:

In accordance with custom and the laws of Maine, I herewith submit my annual report of the public schools of Bridgewater.

All schools in town opened on October 7th with approximately the same enrollment as the previous year. However, there were fewer pupils who entered school for the first time this past fall. There was a considerable turnover in teachers but the new ones have fitted themselves into the general picture and are doing a very commendable piece of work. Mr. Irving Ingerson, of Patten, was elected as the Principal of the Grammar School. Miss Beulah O'Roak and Miss Erma Grant fill the position in the Intermediate Building, and Mrs. Viola Nickerson has replaced Miss Phyllis Clark, who resigned to enter the F. B. I., as teacher of Sub-Primary and Grade I.

The teachers have had the difficult task of rationing to do. This has meant extra time and work for them, but they have done the job willingly and efficiently.

The physical fitness programs we have been asked to institute in the secondary schools have shown plainly that more attention should be paid to this part of the educational program in the elementary schools. In order for this program to function efficiently, a supervisor for health and physical education should be added to the elementary staff. The State subsidizes about half the salary for this position.

It would be possible for one person to supervise this work for all towns in the Union, thus making necessary only a small amount of money from each town.

The past fall and winter the state nurse and doctor have given diphtheria inoculations to a number of pupils in the schools. The town should see that funds are made available this spring to give smallpox vaccinations to the school children. This precautionary measure may be the means of saving a good many lives.

The textbook situation in the Village School is showing a marked improvement and in another year every grade should be well equipped with all types. The grade schools made some money last year, which will go into some much needed reference material for the upper grades. There is also a great need for additional reference material in the High School. New library tables and shelves should be put in one of the rooms of the Academy. Maps and globes should be added next year.

I wish to take this opportunity to express my appreciation to the Superintending School Committee, teachers and all the the citizens of Bridgewater for their sincere cooperation in all things connected with the welfare of the schools. It has been a pleasure to serve the community as Superintendent of Schools.

Respectfully submitted,

LLOYD H. ROBINSON,

Superintendent of Schools
